5535170 timing belt kit
 5535150 tensioning pulley kit
 55351701 waterpump kit

IMPORTANT NOTE!

Please use a 6-mm hexagon allen key to turn the cam and tension the toothed belt with modified tensioning pulley.

Please observe the installation instructions for the modified tensioning pulley included in the packaging!

Adhere to the vehicle manufacturer's specifications at all times!

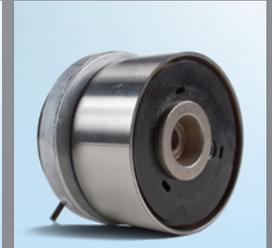

Due to the constant development of our products, the design of tensioning pulley 55351 has been changed. The Service Information sheet shows the visual differences between the two designs (see Images 1 to 4)

We may have mixed stocks during the transitional phase.

Both tensioning pulleys meet the technical specifications and can be used without restrictions on the specified vehicles.
