GAT5145A is a supersession of **GAT5145** that increases application coverage to include toothed belt replacement on 1.0L 3-cylinder and 1.2L, 1.4L, 1.5L & 1.6L 4-cylinder petrol engines fitted in VW group models from 2012.

This tool kit includes all the necessary tools to perform the required work on these types of engines to lock the camshaft and crankshaft in position and replace the timing belt. **GAT5142** has been added to tool kit **GAT5145A** in comparison to the content of **GAT5145**. **GAT5142** can be fitted onto the front of the camshaft sprockets.

The universal handle **GAT4939** can be installed on crankshaft pulley holding tool **GAT5144** and secured with a retaining screw for easy use and long reach access. **GAT5169** combines both article references.

IMPORTANT: If you can't fully insert **GAT5147** or **GAT5146** in the slots of the camshaft, don't force the tool and adjust the camshaft position for correct fitting.
