

EUROLUB LAGERFIT LITHO-PLEX EP 2

Description

LAGERFIT LITHO-PLEX EP 2 is a blue, mineral oil-based lithium complex soap grease with EP additives. LAGERFIT LITHO-PLEX EP 2 is suitable for the lubrication of roller and plain bearings subjected to high pressures at elevated bearing temperatures. It is particularly recommended for the lubrication of wheel bearings in commercial vehicles and for high-speed passenger car wheel bearings.

- oxidation-resistant
- kneading-stable
- water-resistant
- good corrosion protection properties
- high thermal stability
- high load-bearing capacity
- adhesive

Can be used with

KP2N-30
MB 265.1
MAN 284 Li-H2

Berg.Achsen 02.1040.45.00

Delivery

Art.-No. 714400 24 x 400g cartridge

Technical Data

Data	Unit	Method	Value
Temperature range	°C		-30 bis +150
Flow pressure at -35°C	mbar	DIN 51 805	+200
Dropping point	°C	DIN ISO 2176	>250
Walk penetration	1/10 mm	DIN ISO 2137	265 bis 295
Soap base			0
Temperature range	°C		Lithiumkomplex
