

EUROLUB KLARE SICHT WINTER KONZENTRAT

Description

CLEAR VISION WINTER CONCENTRATE is a concentrated additive for windscreen washer systems. It prevents the washer fluid from freezing in frosty conditions and effortlessly removes dirt in winter traffic, whilst ensuring a clear view in summer. Contains a bittering agent to prevent accidental ingestion by children.

The concentration of the product is adjusted to the desired freezing point reduction by diluting with water. The product can be used for all windscreen and headlamp washer systems. Furthermore, it is suitable for polycarbonate windscreens (Hella test) and can be used in vehicles with fan-shaped nozzles.

- Biodegradable
- Methanol-free

DEKRA-tested for, among other things, freezing point, suitability for fan nozzles, flash point, material compatibility (paint, polycarbonate, rubber, metal, etc.), handling and labelling. Enhanced cleaning performance thanks to an improved formula.
