

EUROLUB HANDWASCHPASTE WASCH-STAR

Description

Concentrated hand washing paste based on renewable raw materials for use in commercial hand cleaning. Contains mild cosmetic washing ingredients with special re-fatting agents and special abrasive particles, is dermatologically tested and particularly easily biodegradable.

Apply WASCH STAR hand washing paste to slightly moistened hands and rub in thoroughly, continue washing hands with a little water and then rinse well. Results in thoroughly clean hands with good re-fatting.
