

99 10 250 SB

High Leverage Concreters' Nipper high lever transmission

- 25 % less effort required compared to conventional concreters' nippers of the same size
- extra-slim form for tying deep mounted steel rods
- to lace concrete reinforcing steel with binding wire from a roll
- wire is twisted and cut in a single pass
- high-leverage joint, minimising strain, even when thick binding wires are used
- the high damping of the cutting stroke on cutting through the binding wire reduces the strain on tendons and muscles
- cutting edges additionally hardened; cutting edge hardness approx. 61 HRC
- High-grade special tool steel, forged, oil-hardened
